# Great North Lineman College™

## Powerline Training

### POWER PACK

#### EQUIPOTENTIAL BONDING & GROUNDING (EB&G)

A multi-tiered training course for understanding and applying equipotential bonding and grounding (EB&G) principles. Includes both foundational and advanced training for Powerline workers. Topics are tailored to real-world application in overhead, underground, and substation environments.

**Duration:** (2 days) 16 hours

**Min Participants:** 4 (Max 15)

**Price:** \$599

**Remote Price:** \$1849 (Optional)

#### LIVE LINE – RUBBER GLOVE TECHNIQUES

The fundamental principles and techniques of energized work using rubber gloves. It is designed for apprentices and early-career Linemen who are transitioning into live-line work environments. Emphasis is placed on safety procedures, inspection, and proper application of rubber protective equipment.

**Duration:** (4 Days) 32 hours

**Min Participants:** 4 (Max 6)

**Price:** \$1499

**Remote Price:** \$6000 (Optional)

#### POLE TOP & TOWER RESCUE

A practical rescue course designed for emergency situations involving Linemen at heights, including wood poles and powerline structures. Focus is on situational awareness and using both standard and improvised rescue tools.

**Duration:** (1 Day) 8 hours

**Min Participants:** 4 (Max 15)

**Price:** \$225

**Remote Price:** \$1499 (Optional)

#### SELF-RESCUE & BUCKET ESCAPE TECHNIQUES

Focused on individual rescue skills, this course equips linemen with essential self-rescue and bucket escape techniques in case of mechanical failure or personal emergency. Emphasizes confidence and competence in isolated scenarios.

**Duration:** (1 Day) 8 hours

**Min Participants:** 4 (Max 15)

**Price:** \$225

**Remote Price:** \$1499 (Optional)

FOR TRAINING. \*ADDITIONAL TERMS AND CONDITIONS APPLY.

### OUR MISSION

To build a foundation of expertise and safety in aspiring Powerline Technicians, equipping them with the skills necessary to succeed in a dynamic and essential industry.

### OUR VISION

To develop a new generation of Powerline Technicians who drive the industry's growth through unparalleled expertise and safety practices.

### OUR VALUES

**Growth:** Fostering continuous personal and professional development.

**Network:** Building a strong community of industry connections and support.

**Leadership:** Inspiring students to lead with integrity and excellence.

**Commitment:** Demonstrating dedication to our mission and vision.
